Pierre Vautherin

Lead Software Engineer

I have seven years of experience in designing and developing scalable Web applications. I have a Frontend background, but I am a regular contributor to Backend as well and to Devops solutions.

💼 Experience

SeLoger (AVIV Group) - Lead Software Engineer

Oct 2020 - present
> Migrated local sites (Seloger, Immowelt, Logic-Immo) to a White Label solution
> Migrated the Frontend to runtime-composition architecture using Webpack Module Federation
> Mentoring team members & Code reviews

Photobox - Software Engineer

Nov 2018 - Oct 2020
AI-in-Editor Team
> Contribution to AI features for Photo books creation
> Frontend image optimization to improve speed and interactivity
> Dynamic linking between Apps and Web experience

Groupeer Technologies - Fullstack developer (Intern)

Feb - July 2018
> React Typescript App internationalization
> Fleet management service for IoT devices creation

Project manager

2008 - 2017

🎓 Education

IFOCOP - 2018 - JS Fullstack Developer Training

> frontend project: Fallout-style RPG in React
> fullstack project: Realtime Bitcoin trading simulator

Sorbonne University - 2008 - Master's degree in Humanities

⚙️ Miscellaneous

Native speaker French, fluent in English.

Passionate traveller and rider. Fond of trail running.

I really love cinema, especially Kubrick, Visconti and Tarkovsky.
